Experience

AeonX Digital Technology Ltd

Trainee - Web Developer

May 2024 – Sept 2025

Dehradun, Uttarakhand

Inventory Solution Project

- Worked as a Frontend Developer on the Inventory Solution Project, a system designed to track production orders, dispatch orders, and monitor inventory operations.
- Collaborated with the team to improve UI components and functionality using Next.js/React.js, boosting performance and increasing user satisfaction scores by 15%.
- Developed a monitoring dashboard screen, providing real-time insights into inventory and production data, reducing manual tracking efforts by 40%.
- Integrated REST APIs to connect backend services with the dashboard, streamlining data flow and improving response times.
- Utilized WebSockets to deliver live updates on production data, ensuring instantaneous visibility of operational performance.

CodeJi Infotech Pvt Ltd

Software Engineer Intern

Oct 2023 – April 2024

Dehradun, Uttarakhand

- Solid understanding of modern HTML5, CSS3, JavaScript and Bootstrap standards, with a focus on writing clean, maintainable code that adheres to industry best practices and accessibility guidelines.
- Built single-page applications (SPAs) with React.js, using Hooks and Context API for state management, improving application performance and scalability by 25%.
- Demonstrated ability to adapt quickly to new technologies and contribute effectively to achieving project objectives.

Personal Projects

🔗 Multi-Store E-Commerce Platform | React.js, Next.js, Node.js, Express.js, Redux.js, MySQL, Sequelize

- Built a full-stack multi-store e-commerce platform using Next.js, Node.js, Express, Sequelize, and MySQL, allowing users to create and manage customized online stores with scalability and performance in mind.
- Developed an admin dashboard for store owners to manage products, categories, sizes, colors, billboards, and customer orders, improving store management efficiency by 30%.
- Implemented a customer-facing storefront with product browsing, advanced filtering, cart functionality, and secure checkout through Razorpay payment gateway, reducing checkout failures by 20%.
- Designed and optimized RESTful APIs for authentication, order management, and payment processing, ensuring 99.9% uptime, secure transactions, and faster response times (25% improvement).

🔗 Expense Tracker | MongoDB, Express.js, React.js, Node.js

- Developed a full-stack Expense Tracker application using the MERN stack for efficient financial management.
- Built backend RESTful APIs for handling transactions, users, and categories with proper data flow between frontend and database.
- Enabled filtering and sorting of transactions based on type (income/expense), date, and category.
- Integrated data visualization features such as charts/graphs to analyze spending patterns and financial trends..

Technical Skills

Languages: Java, JavaScript, TypeScript, HTML5, CSS

Technologies: React.js, Node.js, Express.js, Redux.js, Bootstrap

Databases: MySQL, MongoDB

Education

G. B. Pant Institute of Engineering & Technology

Bachelor of Technology in Computer Science & Engineering (77.34 %)

Aug 2019 – June 2023

Pauri Garhwal, Uttarakhand

- **Relevant Coursework:** Data Structures and Algorithms, Database Management System, Operating Systems, Object Oriented Methodology
